PROFESSIONAL SUMMARY

Full Stack Developer with over 4 years of experience building scalable, secure, and maintainable web applications using Node.js, Express.js, React.js, and Next.js. Expertise in designing REST APIs, implementing real-time features using WebSockets, and managing databases with MongoDB. Strong foundation in cloud services, and CI/CD pipelines. Proven track record in providing user-focused solutions with a passion for clean code and modern architecture.

TECHNICAL SKILLS

- **Languages/Frameworks:** JavaScript, Node.js, Express.js, React.js, Next.js
- **Databases:** MongoDB, PostgreSQL, Redis
- **Cloud/DevOps:** Azure, Docker, GitHub Actions
- **Tools & Platforms:** Git, Postman, Jira, Figma, WebSockets, JWT, Nodemailer, Razorpay
- **Testing:** Jest, Cypress

PROFESSIONAL EXPERIENCE

Verisys Global

Feb 2024 - present

Associate Software Engineer

Remote

- Built backend services using Express.js and MongoDB for order and payment modules.
- Developed automated web scrapers using JavaScript for healthcare credentialing data.
- Created real-time dashboards using React.js and WebSockets, reducing latency by 35%.
- Deployed containerized applications using Docker and Kubernetes.
- Integrated CI/CD pipelines using GitHub Actions and Azure.

PwC

Apr 2021 - Oct 2023

Associate 2

Remote

- Led full-stack development of a caregiver platform using Node.js, Express.js, and React.js.
- Implemented real-time communication features via WebSockets.
- Created scalable REST APIs and mentored junior developers.
- Contributed to Agile practices and sprint planning sessions.

Capgemini

Jun 2020 - Oct 2020

Frontend Intern

Remote

- Developed accessible and responsive web pages using React.js and JavaScript.

PROJECTS

Authentication & User Routing System

- Designed and implemented a secure authentication flow using JWT for login/signup, and Nodemailer for OTP-based email verification.
- Engineered dynamic, user-specific routing using Next.js, improving navigation and maintainability.
- Reduced user support queries by 70% by introducing automated password reset via tokenized email links.
- Stack: Node.js, Express.js, MongoDB, React.js, Next.js, Nodemailer.

E-Commerce Backend Platform

- Built a scalable and modular e-commerce backend enabling user registration, product management, cart operations, and order tracking.
- Secured payment workflows through Razorpay integration and OTP-based authorization using Nodemailer.
- Achieved a 40% improvement in API response times using efficient route structuring and MongoDB indexing.
- Stack: Node.js, Express.js, MongoDB, Razorpay, JWT, Nodemailer.

Web Developer Portfolio

- Developed a personal developer portfolio with smooth animations, dark mode, and responsive layout to showcase professional work.
- Enhanced SEO and user engagement through dynamic rendering and optimized Lighthouse scores.
- Achieved 100% score in best practices and 90% in SEO metrics.
- Stack: React.js, Next.js, Tailwind CSS, Framer Motion

EDUCATION

B.Tech. in Electronics and Communication Engineering

Siksha O Anusandhan University, Bhubaneswar

2016 - 2020

CERTIFICATIONS

- Meta Certified React Advanced Developer
- AWS Solution Architect Associate - SAA 03
- Microsoft Azure Fundamentals - AZ 900
- Human-Centered Design - PwC
- Digital Acumen - PwC

ADDITIONAL INFORMATION

- Available for remote and hybrid roles.
- Passionate about modern backend architecture, scalability, and team collaboration.
