PROFESSIONAL SUMMARY

Full Stack Developer with over 4 years of experience building scalable, secure, and maintainable web applications using Node.js, Express.js, React.js, and Next.js. Expertise in designing REST APIs, implementing real-time WebSockets features, and managing databases with MongoDB. Strong foundation in cloud services and CI/CD pipelines. Proven track record in providing user-focused solutions with a passion for clean code and modern architecture.

TECHNICAL SKILLS

- **Languages/Frameworks:** JavaScript/TypeScript, Node.js, Express.js, React.js, Next.js
- **Databases:** MongoDB, PostgreSQL, Redis
- **Cloud/DevOps:** Azure, Docker, GitHub Actions
- **Tools & Platforms:** Git, Postman, Jira, WebSockets, JWT, Nodemailer, Razorpay
- **Testing:** Jest

PROFESSIONAL EXPERIENCE

Verisys Global

2024 - present

Associate Software Engineer

Remote

- Built backend services using Express.js and MongoDB for order and payment modules.
- Developed automated web scrapers using JavaScript for healthcare credentialing data.
- Created real-time dashboards using React.js and WebSockets, reducing latency by 35%.
- Deployed containerized applications using Docker and Kubernetes.
- Integrated CI/CD pipelines using GitHub Actions and Azure.

PwC

2021 - 2023

Associate 2

Remote

- Led full-stack development of a caregiver platform using Node.js, Express.js, and React.js.
- Implemented real-time communication features via WebSockets.
- Created scalable REST APIs and mentored junior developers.
- Contributed to Agile practices and sprint planning sessions.

Capgemini

2020

Frontend Intern

Remote

- Developed accessible and responsive web pages using React.js and JavaScript.

PROJECTS

AI Powered Twitter Bio Generator

[Git repo link](#)

- Created a Twitter bio generator tool powered with OpenAI.
- Integrated magic UI and shadcn UI components for sleek and catchy user interface.
- Implemented Llama 3 70B and 8B AI model that supports context window token up to 128k.
- Stack: Next.js, TypeScript, Groq, openAI

Pictoria AI

[Git repo link](#)

- Pictoria AI is an underdeveloped web app that provides solutions to AI prompts and generates desired photo images with custom user settings.
- Developed and implemented user authentications, including email confirmation.
- Implemented the Flux Dev and Flux Schnell models for generating images.
- Feature like model training and payment gateways integrations are in progress.
- Stack: Next.js, TypeScript, Replicate, Supabase (Postgres SQL), Shadcn UI

Backend E-commerce web app

[Git repo link](#)

- Built a scalable and modular e-commerce backend enabling user registration, product management, cart operations, and order tracking.
- Secured payment workflows through Razorpay integration and OTP-based authorization using Nodemailer.
- Achieved a 40% improvement in API response times using efficient route structuring and MongoDB indexing.
- Stack: Node.js, Express.js, MongoDB, Razorpay, JWT, Nodemailer.

EDUCATION

B.Tech. in Electronics and Communication Engineering

Siksha O Anusandhan University, Bhubaneswar

2016 - 2020

CERTIFICATIONS

- Meta Certified React Advanced Developer
- AWS Solution Architect Associate - SAA 03
- Microsoft Azure Fundamentals - AZ 900

ADDITIONAL INFORMATION

- Available for remote and hybrid roles.
- Passionate about modern frontend and backend architecture, scalability.
- My Portfolio app
